## MAJOR LEAGUE GOALS & OBJECTIVES

The object of this policy is to foster and ensure the development and success of the club and its players today and in the future.

---

3rd Grade is the platform for young players making the transition from junior baseball to senior baseball to develop their potential. It will be used for players to improve skills, knowledge and understanding of baseball with the encouragement, assistance and experience from coaches, senior players and the club. The focus will be on enjoyment, participation and development.

---

2nd Grade is the stepping stone to 1<sup>st</sup> grade. It will be used for further development, improvement of skills, knowledge and understanding of baseball at a higher and more competitive level. Players will be challenged to perform as the focus moves towards being competitive. The focus will not be solely on results, but also on the way that the game is played.

---

1st Grade is the highest and most competitive grade that will represent the club. Players will be challenged to perform at a consistently high level as the focus of this grade is to be competitive, to win each game and to claim the premiership.

---
